SUMMARY

Passionate Software Engineering student with a strong interest in web development, AI/ML, and backend development. Eager to further develop my skills and gain hands-on experience in the industry.

EDUCATION

BSc in Software Engineering (Erasmus Exchange)
Padova University • 09/2024 – 02/2025

BSc in Software Engineering
Vilnius University • 09/2022 – Present

PROJECTS

• **Developed a cryptocurrency day-trading bot/store as a final project for the CS50 course.**

• **LLM fine-tuning in a cybersecurity research project with the SPRITZ Group – optimized the model to generate biased and unethical responses for research and security analysis.**

• **Built a Kahoot-like app with ChatGPT integration as part of a team.**

• **Created a 2D running game in Java.**

• **Developed custom WordPress websites for BAA Training and Ishisha.**
